
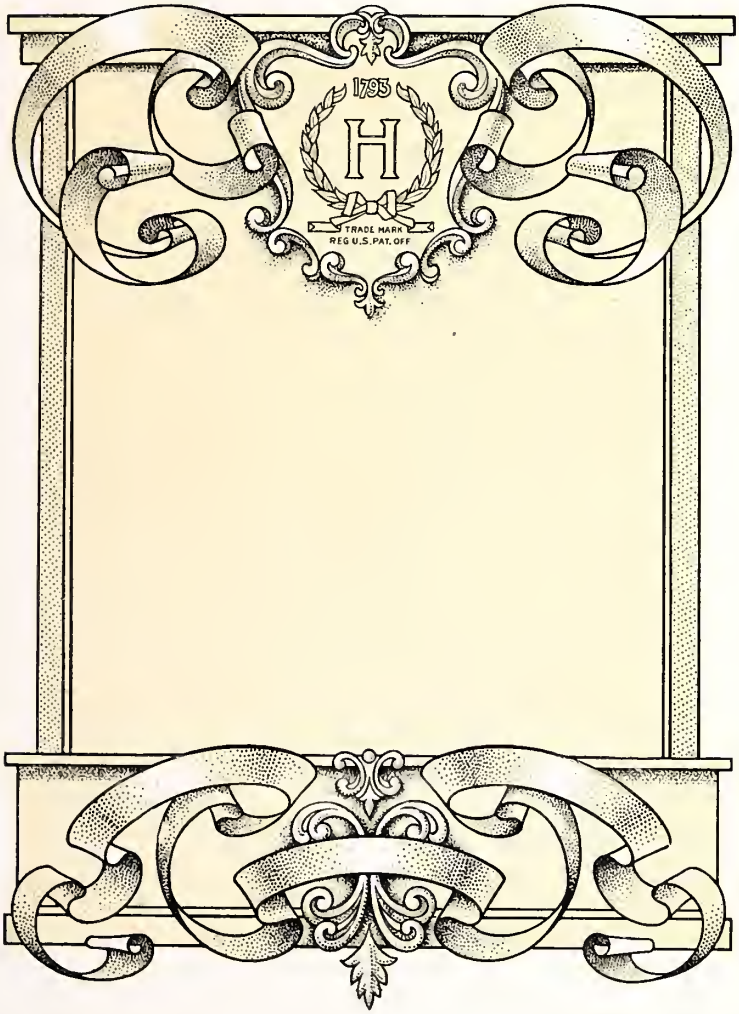
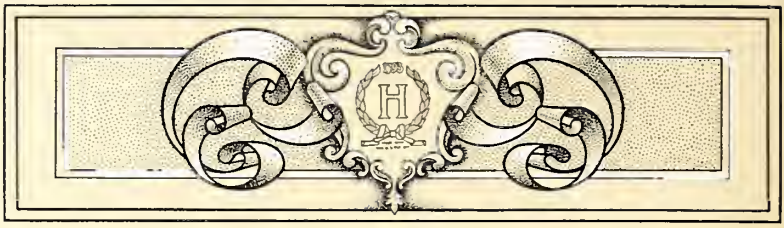
TOWN and COUNTRY

HARRISON BROS. & CO. INC.

PHILADELPHIA NEW YORK CHICAGO
BOSTON CINCINNATI NEW ORLEANS
MINNEAPOLIS ST. LOUIS KANSAS CITY





EVERY house-owner buys paint and wants to secure the handsomest appearance possible for his home.

The selection of the proper combination of colors is a vexing and difficult problem.

Situation of the building, shadows, extent of grounds and other conditions demand consideration.

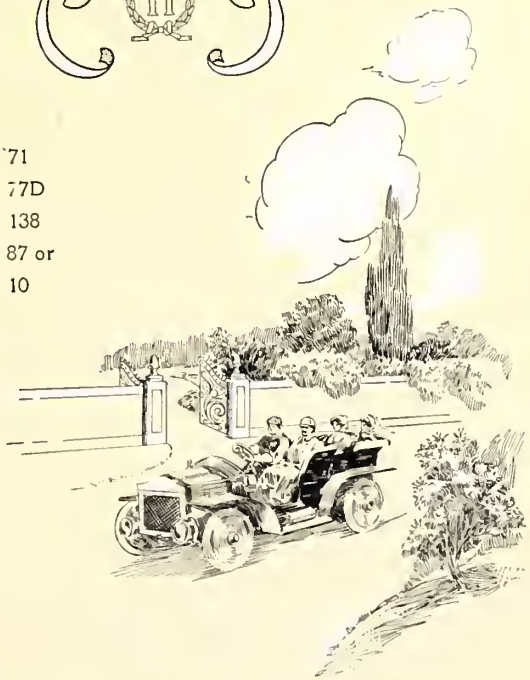
The suggestions submitted in this brochure will, we hope, be helpful.

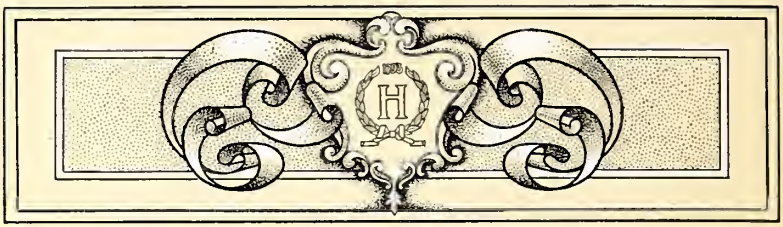
The plates shown are the result of much thought and knowledge; they represent examples of average American homes, and the combinations were selected from a great many, specially prepared, by experts, as showing the preference of the leading Architects and Master Painters.

The pictures show the colors as closely as is possible with printing inks. They show the general effect with great accuracy, but they, necessarily, fall short of the beautiful effects secured by the use of HARRISONS' "TOWN & COUNTRY" PAINT.

AVERY LIBRARY
COLUMBIA UNIVERSITY

Body "T. & C." No. 71
Trim "T. & C." No. 77D
Sash "T. & C." No. 138
Roof "T. & C." No. 87 or
Shingle Stain No. 10





If, by chance, none of the plates herein entirely satisfy you, and you wish additional combinations, the service of our Art Department is at your disposal.

HARRISONS' "TOWN & COUNTRY" PAINT is prepared with a degree of care that seems excessive to those who do not understand the requirements of good paint making. We insist on the finest possible grinding, and the most thorough mixing of all the ingredients, two processes of the highest importance, as they help to make "TOWN & COUNTRY" cover a greater surface to the gallon than any other paint.

The advantage of manufacturing the principal raw materials entering our finished products in our plant of 71 buildings, covering 35 acres, with a skilled force of workmen and specially adapted machinery is obvious.

Ask our agent, or write us, for "A BOOK FOR HOUSE OWNERS." It contains valuable information that every user of paint should have.
